CALYPSO™ FMZ

multilayered full milled zirconia

Now you can have strength without compromise. By utilizing technology with traditional technique, Modern Dental now brings you unmatched esthetic possibilities in the strongest and most lifelike full milled zirconia crowns and bridges we've ever made.

The new formulation and process of our multilayered zirconia with color gradient, utilized in the fabrication of Calypso™ FMZ, gives you greater flexibility to create beautiful smiles in the posterior *and now in the anterior.*

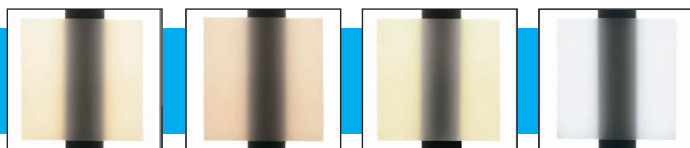

We proudly offer a
5-Year Warranty
against fractures on
all Calypso™ FMZ
crowns and bridges.

The Calypso Advantage

- Multilayered zirconia with color gradient for improved translucency and superior esthetics
- Digitally designed for precision and consistency
- Easy to adjust with our Modern Zirconia Diamond Bur Kit
- Conventional cementation, no bonding required
- Highly polished surface is kind to opposing dentition
- Excellent strength and marginal fit

Translucency of 1.0mm thick materials
