Dental Laboratory USA

Zenostar®

Full Contour Zirconia

With improved flexural strength, greater resistance to breakage, and better anti-aging properties, Ivoclar Vivadent's Zenostar zirconia provides an excellent material for dental restorations.

Zenostar's pre-shaded zirconia provides natural looking restorations and can also be used for fabricating esthetic frameworks. Available in five basic shades, Zenostar's translucent zirconia results in strong and beautiful crowns.

*We proudly offer a
5-Year Warranty
against fractures on
all our full milled zirconia
crowns & bridges.*

Zenostar[®]

Unmatched Zenostar[®] Performance

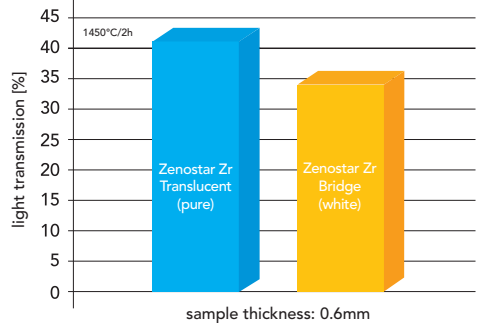

- Full contour zirconia crowns and bridges without a ceramic veneer
- No chipping
- Biocompatible and durable
- Pre-shaded zirconia for staining and glazing
- Superior esthetics with extremely high light transmission
- Above average flexural strength
- Outstanding resistance to hydrothermal aging

Full contour zirconia

FABRICATED FOR
Beauty,
Strength,
& Simplicity.
